Extreme Israel Attractions

#1 Rappelling and Rock Climbing at Maktzevot Kedumim

This is an ancient quarry located in Carmel Nature Reserve national park, an area often called "little Switzerland" due to the lush greenery and beautiful landscape. This gorgeous adventure starts with rappelling down the cliff with a panoramic view of the Carmel Mountains. Here we introduce top rope rock climbing. Each person can climb as high as s/he feels comfortable, and then get belayed back down. There are rock climbing routes for every level of climber, from rank beginner to very advanced. You can do the rappelling and rock-climbing multiple times if you want. Afterward we take a short hike back to where we started, all the while enjoying the truly stunning panoramic view. This is a great site for hiking and picnics. If you like, we can discuss adding a nice hike to your rappelling and rock-climbing tour. All the rope activities are optional. No experience is necessary.

#2 Rappelling at Keshet Cave

Visit the most beautiful view in Israel from the highest point in the Western Galilee, with a vista of the sparkling Mediterranean Sea and the entire Galilee. Once a real cave, the ceiling of the cave collapsed millennia ago leaving only an arch which gives the site its name. You can rappel off the mammoth natural stone arch bridging the mountains, sailing through the air with an amazing panoramic view surrounding you. This is very exciting as you are suspended in mid-air. We will use cables to take the beautiful, adventurous 35-minute hike back up, often accompanied by many curious mountain goats. The site is accessible to all, even strollers and wheelchairs. All the extreme activities are optional. The rappelling is easy and no experience is necessary. Minimum age is 10 years old.

#3 Black Canyon

This is a full-day adventure in a deep canyon of volcanic stone. This unmarked hike in a closed national park is reserved for groups led by licensed tour guides only. This hike includes a lot of climbing over huge lava boulders, and is not on a standard trail. Once we enter the canyon we will be navigating through the jungle, not along paths. On this exhilarating and captivating tour through the lush, wild jungle of the Golan Heights you will see beautiful birds, small animals and lots of water! Ninety percent of this hike is near or in water, from ankle to knee deep, including rappels through three waterfalls. Swimming and rappelling are required (life jackets are available). You need to be in good shape, but the good news is that it's 85 percent downhill! We recommend ages 8 and above for this awesome hike. There is a 22 NIS Israeli National Park entrance fee for adults over 18 years old, and 10 NIS for children under 18 years old, paid at the park when you enter.

Extreme Israel Attractions

#4 Rappelling, Big Swing, and Spelunking at Alma Cave

Alma Cave, located in a beautiful region in the eastern Galilee, used to be the deepest spelunking cave in Israel until the mid-1980's. There are many stories and legends about this cave, and it is most certainly a special and magical place to visit! A step by step description: First we will hike for a few minutes from the car to the entrance of Alma Cave. As we walk we will take in the spectacular panoramic view of Mt. Hermon, the Golan Heights, the Hula valley, and Mt. Evyatar. After about seven minutes of hiking, suddenly we come to the huge opening in the ground that leads to the cave. At this point the guide will set up the ropes and we will rappel down the cliff through the air to the entrance of the nice, cool cave. Once everyone rappels to the bottom, we will walk to the place where we do the big swing. Each person in turn will be harnessed to the rope and have a chance to do horizontal Tarzan-style rope swing. You will be jumping and then flying! Serious excitement and something you usually see only in the movies... and then we will rappel safely back to our landing. Then we will go spelunking. This is an exciting hike in the vast, dark cave using headlamps. We'll be climbing up and down ladders and through small spaces and little holes in the cave. This is a spectacular adventure. All the extreme activities are optional. The caving is a little bit challenging, but it is a back and forth route, so at any time people can decide to turn around and go back. No experience is necessary.

#5 Flying ATV/Baki

Do you dream of flying? Gliding on the air currents, relying only on the wind is an unforgettable, thrilling experience – sea air, sun, blue water and blue skies... Enjoy it all from a bird's eye view. Also known as para-motoring, Baki is a form of ultralight aviation where the pilot wears a motor on his or her back (a paramotor) which provides enough thrust to take off. No wind or thermals are needed. It can be launched in still air, and on level ground, by the pilot alone — no assistance is required. It takes only a couple of seconds before you are gently lifted off the ground and into the sky, embarking on a journey that will provide you with excitement and unforgettable memories! You choose the nature of your experience: calm and tantalizing, or extreme and adrenalin-filled. No previous flight experience is necessary for tandem flights; they can be enjoyed by just about anyone from the age of 6 and up!
